

## Education

**University of Michigan • School of Information** • Ann Arbor, MI • Apr '19  
Master of Science in Information - UX Research and Design

**PES Institute of Technology** • Bangalore, India • Apr '14  
Bachelor of Engineering in Telecommunication

## Experience

**UX Designer • Cancer Research Informatics Center** • Ann Arbor, MI • Nov '17  
• Identified usability issues and Conducted **contextual inquiry** at the facility to address usability issues.  
• Redesigned wireframes in **sketch** & conducted **high-fi prototype testing**.

**Product Manager & UI Developer Via.com** • Bangalore • Aug '16 - Mar '17  
• Developed internal tools in **React.js** independently to assist translation process.  
• Assisted in developing wireframes in **Illustrator** using user research reports.  
• Planned design, dev team, and management.

**UI Developer • SapientRazorfish** • Bangalore, India • Aug '14 - Aug '16  
• Implemented Adobe analytics tools & developed web pages using **jQuery**.

## Projects

**WASD: Indoor Navigation App** • Interaction Design • Fall '17  
• Rethink navigation in context of multistory buildings.  
• Used principles of Design Thinking to understand the user.  
• Developed **sketches, storyboards** and **prototypes** using **Illustrator, Sketch test** the design with users.

**AthleteJuvo: Gamification for Athlete Rehab** • Research, Interaction Design • Fall '17  
• An app to give emotional support to athletes when they get injured.  
• Identified pain points using **literature review, surveys and interviews**.  
• Used an **affinity wall** to identify major issues to decide the features accordingly.  
• Developed **prototype** using **sketch** and **invision** app.

**Water Connection Transition in Ann Arbor** • Contextual Inquiry • Fall '17  
• Researched to identify the cause of increased workload.  
• Developed **interview protocol, interviewed** stakeholders.  
• Constructed **affinity wall** to help propose recommendations.

## UX Research & Design

Interviewing, Contextual Inquiry  
Storyboarding, Wireframing, Affinity mapping, Low & High Fidelity Prototyping, Interaction Design  
Usability testing, Visual Design

## Design Tools

Illustrator, Photoshop, CorelDraw  
Sketch, Figma, InVision, Marvellapp, Framer

## Programming

HTML, CSS, JavaScript, jQuery, ReactJS, D3.js, NodeJS, Gulp, SCSS, Foundation, Git, Python, C++, C, Processing (Arduino)

## Leadership

### ASB 2018, Florida

Selected for a week long program to identify high maintenance customers in the city of Fort Myers.

### Design Jam, Inmate Healthcare

Worked with public health & law students to brainstorm ideas on improving healthcare at Wayne County Jail.
